"Progress with Tradition"

October 07

### Reference

To Whom It May Concern:

E-foods supply fresh Produce to all our managed establishments providing a first class delivery service.

All deliveries are delivered in temperature-controlled transport, to ensure the produce arrives fresh in quality.

All invoices are priced and our accounts payable department receives one consolidated invoice per month, providing a major saving in time for a very busy department.

When on the odd occasion we have encountered a problem it is rectified immediately, efficiently and with good customer service.

The best recommendation I can provide is that we have just awarded e-foods with a further one-year contract to supply all our managed food lead pubs.

Yours faithfully

Colin Webb  
Purchasing Manager
